## Installing Drivers for the Canon printer (black & white laser) – MAC

Note: these instructions where generated from a Mac Book Pro, your screens/prompts may be different.

- 1) Get the USB drive. It's next to the Canon printer in the Community Room.
- 2) Insert the USB drive into your computer and go to the Canon1350 MFP folder.
- 3) Locate the file called 'Mac\_MF\_Ver1060\_00.dmg' inside the OS X Folder and open it (double-click). You may be asked if it's OK for this program to make changes to your computer. If you are, click "Yes".
